Maltese companies participate in Malta Chamber trade mission to Poland

Twenty Maltese business representatives from Malta based companies participated in a successful trade mission organized by the Malta Chamber of Commerce Enterprise and Industry, the Polish Chamber of Commerce, the Polish Agency for Enterprise Development and the Polish Ministry of Economy.

The mission included a well-attended high-level Poland - Malta Business Forum which was addressed, amongst others, by the Minister for the Economy, Investment and Small Business Chris Cardona and Hon Marcin Ociepa on behalf of Jadwiga Emilewicz, Minister of Entrepreneurship and Technology of Poland and later followed by a B2B meeting between the Maltese and Polish companies.

Frank V. Farrugia, President of Malta Chamber and his Polish counter-part Andrzej Arendarski, signed a Memorandum of Understanding between the two Chambers to strengthen business ties in the interest of respective members.

This event which registered over one hundred and sixty business-to-business meetings was facilitated through Enterprise Europe Network (EEN), a network helping companies thrive internationally, within which both The Malta Chamber of Commerce Enterprise and Industry and the Polish Agency for Enterprise Development are members.
