

THE MALTA CHAMBER

PRESS RELEASE

18th March 2021

Digital transformation at the core of signing between The Chamber and BMIT Technologies

The Malta Chamber of Commerce, Enterprise and Industry has signed a Bronze Collaboration Agreement with BMIT Technologies plc. The agreement will pair BMIT Technologies with The Malta Chamber's Digital Transformation Committee which will provide awareness to the business community in areas related to data economy, cyber security and digital skills amongst others.

"As a Chamber of Commerce, we fully promote the need for smart investment in digitalisation, innovation and research in support of the business community at large. Through this signing, The Malta Chamber is once again strengthening its resources by collaborating with national business champions such as BMIT Technologies to be more effective to the needs of the country more than ever before. We are eager to support our membership with the inevitable 'techceleration' in a robust and resilient manner" noted The Chamber President, Perit David Xuereb.

Ing. Christian Sammut, BMIT Technologies CEO, said "We are excited to be partnering with The Malta Chamber and support the digital transformation initiative being launched. We look forward to contribute our expertise and resources through steering the Digital Transformation committee and play a leading role in rendering Malta a better place to do business and in so doing generating better lives for its people. Our vision of harnessing technology to power businesses fits perfectly in this initiative".

Through this signing, BMIT Technologies plc will be supporting the Digital Transformation Committee to raise awareness among companies of disruptive technologies. Moreover, this collaboration will allow our Digital Transformation committee to formulate policy positions for a sustainable economic future that is transforming our economy in a rapid manner.

The Memorandum of Understanding was signed by Perit David Xuereb and Ms Marisa Xuereb as President and Deputy President of The Malta Chamber, respectively, and Ing. Christian Sammut, CEO at BMIT Technologies plc.
