## The Malta Chamber welcomes 'Start in Malta' scheme

The Malta Chamber of Commerce, Enterprise and Industry applauds the 'Start In Malta' scheme intended to aid and promote the Maltese startup ecosystem. The Malta Chamber is proud to form part of this initiative.

"This project is being launched at an opportune time, as COVID, through its disruptive forces, is leading entrepreneurs to re-think their business models. The 'Start in Malta' scheme is the ideal seeding ground for innovation and start-ups to happen" said Perit David Xuereb, President of The Malta Chamber.

"The ability to grow a startup into a successful business requires a number of factors to work in unison. It necessitates a culture of collaboration, where background, skills and a plethora of other elements come together to make a project a success. We trust that this tool will continue to create this special environment which will be conducive to our start-ups' growth into success stories" Perit Xuereb augured.
