## Malta Chamber launches corporate video

*Corporate video celebrates Chamber's 170th anniversary as it sheds light on the organisation's operation.*

Marking its 170th anniversary since its establishment in 1848, the Malta Chamber has launched a brand new corporate video aimed at describing the organisation's ambitious operation. The video sheds light on how the Chamber, as an independent organisation, strives to promote competitiveness in Malta in various ways.

The corporate video can be viewed on <https://www.youtube.com/watch?v=CJLcNvN1HLw>

The video describes the various areas of operation of the Chamber, such as Policy work, economic sectors, internationalisation, the Chamber's participation in national bodies as well as its effort to keep its members informed about its achievements.

The corporate video was shown to members during the annual general meeting of the Malta Chamber earlier this year.
