## Chamber of Commerce welcomes relaxation of measures, calls for discipline

The Malta Chamber of Commerce, Enterprise and Industry welcomes the further relaxation of measures allowing for the rekindling of the economy, as announced by the Prime Minister tonight.

The Malta Chamber President earlier today called on Government to cautiously consider enabling a responsible return to normality. The announcements of this evening are seen as a step in this direction, which will hopefully inject confidence in our society.

The Malta Chamber calls on all economic operators as well as members of the public to exercise maximum discipline and strictly observe the protocols as put in place by the country's Health Authorities.

May this be another step forward, that will not require any backtracking in the future.
