Yachting Services Business Section within the Malta Chamber announces membership to the ISS's Association Alliance

The Executive Committee of the Yachting Services Business Section within the Malta Chamber of Commerce, Enterprise and Industry, is pleased to announce its membership to the Association Alliance within the International Superyacht Society (ISS).

The Alliance is composed of representatives from international associations and countries including Australia, the UK, France, the Netherlands, Italy, the USA and the Isle of Man. It held its first Global Summit at the METSTRADE Marine Equipment Trade Show in Amsterdam in 2015 to discuss collaboration on global challenges facing the Superyacht industry, the yacht operators and yacht crew. The summit addressed matters such as the factors limiting vessel availability for charter as well as considering ways to enhance the experience of yacht owners and guests on board. The ISS has facilitated a collaborative approach and convenes regular meetings in Europe and the USA to identify areas of common interest and to provide updates on the progress made in specific areas.

The Yachting Services Business Section will be invited to attend meetings held periodically by the Alliance and to participate in the next summit being held prior to this years' Monaco Yacht Show.
