

THE MALTA CHAMBER

PRESS RELEASE

15 July 2022

The Malta Chamber and Malta Motorways Of The Sea Renew Bronze Partnership Agreement

The Malta Chamber of Commerce, Enterprise and Industry and Malta Motorways of the Sea have renewed their bronze collaboration agreement, extending a long-standing partnership between the two organisations. Both parties will work together to promote enterprise and growth to all Chamber members.

Ahead of the signing, Ms. Marisa Xuereb, President of The Malta Chamber, emphasised the importance of the maritime sector in Malta. Whilst thanking Dr Grimaldi for their long-standing support to The Malta Chamber and the rest of the Maltese business community, President Xuereb outlined how both organisations can work together to continue promoting competitiveness, value to society and innovation.

The President noted that this partnership will also provide The Malta Chamber with the experience and knowledge of a renowned international operator of the field. This wealth of expertise, in turn, will continue placing The Malta Chamber at the forefront to carry out its duties in the field.

“The Malta Chamber of Commerce represents the Maltese economy very well. The initiatives and actions will allow Maltese and foreign companies to obtain the right added value every day, especially in the field of internationalization. The Malta Chamber is therefore an excellent ally in the daily challenges of our business and, for this reason, I am happy to once again support this important independent organization with the Grimaldi Group,” said Dr Eugenio Grimaldi, Director at Malta Motorways of the Sea Ltd.

The Bronze Collaboration Agreement was signed by Ms Marisa Xuereb and Mr Christopher Vassallo Cesareo as President and Deputy President of The Malta Chamber, respectively, and Dr Eugenio Grimaldi, Director at Malta Motorways of the Sea Ltd.
