

**2024 Pre-Budget Document Proposals by
The Malta Chamber of Commerce, Enterprise and Industry on:**

AVIATION

1. An **Aviation Action Plan with timeframes and responsibilities based on resource-requirement as a follow-up to the Aviation Strategy**. The right environment for business needs to be created to operate and grow, supported by a higher budget to the regulator and a supporting eco-system with ancillary services.
2. A niche focus on **aircraft leasing** after an analysis of other jurisdictions for a long-term strategic approach.
3. Improve legislation which creates obstacles to airlines operating to, from and in Malta.
